ABOUT US

Countrywide Pools was first established as Pool Supplies Northam in 2002 by Max and Stephanie Hubble. Having owned an Aqua Technics swimming pool for many years, we saw the need for better pool service and products in the Central Wheatbelt. Since then, our business has steadily grown and is still run by Max & Steph in the background, with their son Nick and his wife Kirsty running the day to do business. We now service an area from Mingenew in the north, Southern Cross to the east, Esperance in the south and all points in between.

Countrywide Pools offers an exclusive range of premium quality swimming pools from leading manufacturers Aqua Technics, Buccaneer Pools and Sapphire Pools. These manufacturers have received numerous awards of excellence and together have over 100 years industry experience. We are proud to offer you these award winning pools for installation in your own backyard.

When you deal with Countrywide Pools you can rest assured that your pool has been built to Australian Standard 1838, includes an Extended Lifetime Structural Warranty and is available with award winning Pool ColourGuard® for brilliant pool colour guaranteed not to fade.

The team at Countrywide Pools will make every effort to ensure that when you purchase your pool from us, you will get the best product available and the best service guaranteed.

WHY CHOOSE US

AS YOUR TRUSTED POOL INSTALLER

EXCEPTIONAL CUSTOMER SERVICE

We help our clients create a clear vision for their pool and surrounding landscape. We then bring our experience and expertise to transform the client vision into a reality, while providing the highest levels of customer service.

HIGHEST QUALITY PRODUCTS & MATERIALS

The team at Countrywide Pools will make every effort to ensure that when you purchase your pool from us, you will get the best product available. Each of our suppliers has been carefully selected and tested for quality and we are confident that what we supply to you is of the highest quality.

SPASA ACCREDITED

Countrywide Pools are proud members of The Swimming Pool and Spa Association (SPASA) of Australia. Members agree to abide by its rules, regulations and strict code of ethics in the conduct of their business.

MULTI AWARD WINNING

Countrywide Pools has proudly received numerous industry awards from SPASA and major suppliers & manufacturers, both locally and nationally.

WHAT SETS OUR POOLS APART

FROM THE REST

GRAPHENE TECHNOLOGY

Revolutionary process infusing graphene nano technology into everyone of our pools. Built like no other, a Graphene Nano-Tech pool is our strongest pool ever.

FADE RESISTANCE

Our pools have patented Pool ColourGuard® surface technology, which resists the effects of UV rays and chemicals, offering superior fade-resistant protection.

ANTI-MICROBIAL PROTECTION

Microtech Anti-Microbial Pool Protection prevents surface algae growth, making it exceptionally hygienic and safer for your family. It's 100% safe and gentle on the human body.

PRECISION MOULDS

New designs are built to exacting tolerances. The edge beams are true, the shapes geometrically perfect and the surface finish is without peer.

SUPERIOR STRENGTH

Full sized structural ribs, fully supported steps and bench seating and a wider edge beam mean the strength is built into the pool. New high strength fibreglass produces a stronger, stiffer pool – up to 20% stronger.

LIFETIME WARRANTIES

Pool ColourGuard® Limited Lifetime Interior Surface Guarantee and Extended Lifetime Structural Warranty - our commitment to providing extended warranties above those standard in the SPASA contract.

BUILT STRONGER TO LAST LONGER

Wall Structure

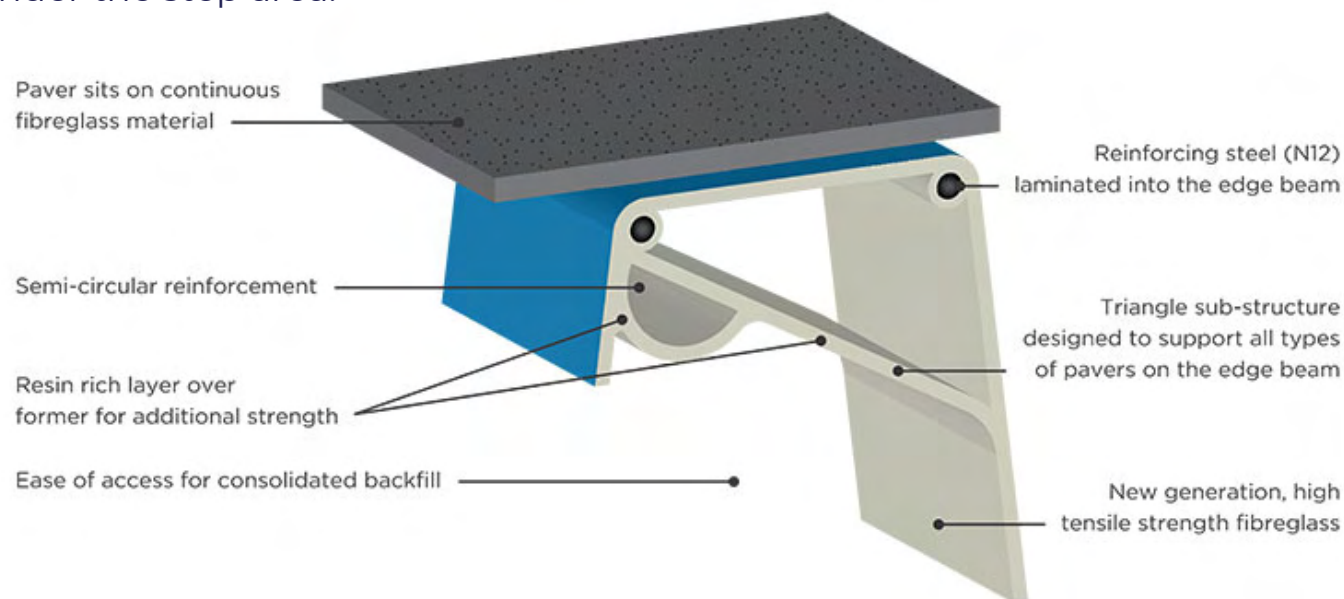

Pools are built with a full-size structural ribbing system along the walls. This reinforces the pool and provides independent structural integrity when installed into a sandy hole, eliminating the need for sand and cement backfill.

Edge Beam Detail

A 200mm wide edge beam is standard with every one of our pools. The design of the edge beam means your pool is structurally sound without having to add secondary engineering works, such as a concrete ring beam. Most paving companies have designed their headers to perfectly fit our edge beams.

Step Reinforcement

Support structures in the step area ensure that backfill can easily and effectively be placed around the pool to sustain the entire pool structure. Without this, it would be impossible to ensure the backfill is consolidated under the step area.

POOL COLOURGUARD® DUAL COAT SYSTEM

Pool ColourGuard® is the only dual surface system with a clear layer protecting the colour layer. One-coat applications have the colour in direct contact with UV rays and chemicals.

Only Pool ColourGuard® can offer you a patented surface protection system for fibreglass pools that resists the effects of UV rays and chemicals. It's like sunscreen for your pool, protecting it from colour loss and weathering. Incorporating a specialised dual coat system as part of the manufacturing process, two layers are merged to provide extraordinary surface protection.

With a brilliant, high gloss finish that lasts year after year, your pool will maintain its beautiful appearance thanks to the innovative and unique Pool ColourGuard® technology. Beware of imitations. We dare you to compare.

POOL COLOURGUARD® COLOUR CHOICES

Crystalite ColourGuard
Twilight

A timeless & hypnotic hue

Crystalite ColourGuard

Shades of summer skies!

Crystalite ColourGuard
Silver Mist

Cool, crisp and clear!

Crystalite ColourGuard
Sky Blue

Swim in the summer sky!

Crystalite ColourGuard
Sandy Bay

Relax by the sandy bay

Ground-breaking **Graphene Nano Technology**

GRAPHENE NANO-TECH

BUILT LIKE no other pool

An Aqua Technics Graphene Nano-Tech pool is designed and engineered like no other fibreglass pool and is the next generation of fibreglass pool technology.

**30%
lighter**

Graphene is surprisingly light, giving our pools exceptional strength without added weight.

**30%
stronger**

Graphene is over 200 times stronger than steel and stronger than titanium, giving you our strongest pool ever.

**Higher
resistance**

A pool with Graphene Nano-Tech has increased flexural and impact strength along with higher resistance to water and chemicals.

OUR POOL MODELS

Our manufacturers have been manufacturing award-winning fibreglass swimming pools since 1976. Right from day one, they knew to be the leading swimming pool manufacturer in Australia, they also had to blaze the trail with product development and technology. So they began researching new manufacturing methods and materials and have been doing so ever since. They have the most comprehensive range of technologically advanced fibreglass pools in Australia. They are Australia's most awarded pool company with over 230 awards received both locally and internationally.

BENCH SEAT DESIGNS

The contemporary style of the bench seat designs will complement any outdoor area and not become dated in years to come.

BENCH SEAT GALLERY

Bench Seat Design Features

Wide seating ledge - running the length of the pool, perfect for taking a break and relaxing or splashing with the kids

Safety ledge on certain models - providing added safety and peace of mind for children learning to swim

Sapphire Pools

YOUR NEW POOL IN 5 STEPS

Discover how we can help you create your dream backyard

Step 1

Chat to one of our friendly team about how we can help create your dream backyard. We will ask things such as site address to determine location, size and style requirements and discuss what we can offer.

Step 2

We will meet you for a site inspection so we can ensure that our quotes are accurate and you won't get any nasty surprises at the end of the process. We also like to put faces to the name!

Step 3

Contracts and building permits are completed and the building stage will begin. We project manage the whole project from start to finish and will keep you updated along the way

Step 4

Your pool is ready! Jump in and enjoy! The construction process generally takes around 3-5 days from start to finish. As we use stabilised backfill, you are able to jump in when we leave site and enjoy your new pool.

Step 5

We're here to help with pool maintenance, water testing & to answer any questions you may have. We understand that new pool ownership can be daunting, but with our expert knowledge, we will talk you through the whole process.
